# Benjamin Moore Products for Healthcare Facilities

Healthcare facilities have an important job: taking care of us when we require medical attention. The myriad of procedures and treatments share a common need: facilities that can stand up to high traffic and repeated washing—while maintaining a clean, professional look. Benjamin Moore & Co. is your single source for the high-performing paints and coatings that will keep your healthcare facility operating cleanly and effectively.

A leading manufacturer of premium-quality residential and commercial coatings, Benjamin Moore & Co. offers various products that meet the specific needs of healthcare facilities, including:

- Durable and scuff-resistant coatings for hallways, loading areas and lobbies
- Low- and zero-VOC paint for offices and waiting rooms
- Traffic paint for parking lots

Our coatings and colours establish a clean, professional environment where your customers will feel comfortable and confident in your capabilities to serve them. Let us help you protect and beautify your facility with minimal disruption, increased cost-efficiency and excellent results.

No matter the surface,  
Benjamin Moore has just the  
right coating for your facility.

## INTERIOR

- 1 ADVANCE® Waterborne Interior Alkyd** delivers a smooth, furniture-like finish in a low-VOC formula that cleans up with soap and water.  
*Perfect for: Doors, trim, shelving*
- 2 Aura® Bath & Spa** provides a matte finish and a mildew resistant coating for high-humidity environments.  
*Perfect for: Bathrooms, locker rooms*
- 3 Aura®** delivers the ultimate performance for rich and everlasting colour, thanks to its proprietary Colour Lock™ technology.  
*Perfect for: Administrative offices, deep colour accent walls, lounges and meeting spaces*
- 4 Benjamin Moore® Acrylic Knockdown** creates a durable, textured, uniform finish over patches, peeling and other imperfections.  
*Perfect for: Hallways*
- 5 Corotech® Pre-Catalyzed Waterborne Epoxy** provides a tough, durable film for walls, ceilings and trim in a low-VOC formula.  
*Perfect for: Kitchens, food service areas, restrooms*
- 6 Corotech® 100% Solids Epoxy Floor Coating** provides heavy-duty protection for demanding commercial environments exposed to heavy pedestrian traffic.  
*Perfect for: High-traffic hallway floors, clinic and waiting room floors*
- 7 Corotech® Waterborne Amine Epoxy** provides good chemical and abrasion resistance on a variety of surfaces, particularly concrete floors.  
*Perfect for: Patient room floors, kitchen floors, utility room floors*
- 8 Corotech® Waterborne Urethane Gloss (V540)** is a Low-VOC, LEED® v4 eligible urethane that provides excellent chemical and abrasion resistance.  
*Perfect for: Surgical suites*
- 9 INSL-X® Stix® Waterborne Bonding Primer** is an acrylic-urethane primer-sealer with unparalleled adhesion to the most challenging surfaces, including glossy tile and galvanized metals.  
*Perfect for: Glazed ceramic tile, previously painted metal and enamel*
- 10 Lenmar® Floor Finishes Polyurethane Wood Floor Finish (350 VOC) 1Y.35X SERIES** is an oil-modified polyurethane designed for the professional hardwood floor refinisher. Benefits include superior flow out for a smooth self-levelling finish and an exceptional amount of solids for maximum build.  
*Perfect for: Hardwood floors, indoor athletic courts, floors*
- 11 Benjamin Moore Natura®** is CERTIFIED **asthma & allergy friendly®** based on achievement of strict criteria for VOC emissions and performance.  
*Perfect for: Patient rooms*
- 12 Eco Spec® WB Interior Paint** is an enhanced 100% acrylic, zero-VOC, low-odour coating that meets the highest environmental requirements.  
*Perfect for: Patient rooms, surgical suites*
- 13 Notable® Dry Erase Paint** transforms virtually any substrate into a dry erase surface, in white or clear over any existing colour.  
*Perfect for: Nurses' stations, break rooms, meeting spaces, cafeterias*
- 14 REGAL® Select** is our classic brand that generations of painters have trusted for excellent hide, coverage and professional results.  
*Perfect for: Lounges, meeting spaces*
- 15 Ultra Spec®** offers a complete line of professional interior coatings—Ultra Spec® 500 for easy application and quick return to service, SCUFF-X® to resist scuffing and chipping in high-traffic areas—all in single-component, latex formulas.  
*Perfect for: Hallways, stairwells, waiting rooms, loading docks, service areas. SCUFF-X® Semi-Gloss is ideal for doors, trim and baseboards*

## EXTERIOR

- 16 Corotech® Mastic Coating** is a high-solids, rust-inhibitive, moisture-resistant, surface-tolerant epoxy mastic that is excellent for ferrous and non-ferrous metals and concrete. When properly top coated (see #21), it exhibits excellent chemical- and UV-resistance.  
*Perfect for: Tank exteriors, exposed steel structures*
- 17 Ultra Spec® Masonry Coatings** are a collection of primers and sealers formulated to penetrate, fill, seal, and finish new or previously painted masonry surfaces.  
*Perfect for: Parking garage walls and ceilings*
- 18 INSL-X® Traffic Coatings** include latex formulas, as well as fast-setting traffic paints for parking spaces, loading zones and other traffic markings.  
*Perfect for: Helipads, loading docks, parking lots, access roads, crosswalks*
- 19 INSL-X® Concrete Coatings** offer great durability and non-skid options for interior or exterior masonry surfaces, specifically walking surfaces.  
*Perfect for: Sidewalks, courtyards, walkways*
- 20 Ultra Spec® EXT** provides easy application, superior adhesion and maximum protection to a variety of exterior surfaces.  
*Perfect for: Wood, vinyl, aluminum, and masonry siding and trim*

## INTERIOR/EXTERIOR

- 21 Corotech® Aliphatic Acrylic Urethane (V500/V510)** is an interior/exterior, multi-use, two-component urethane that offers superior abrasion, chemical and solvent resistance on both metal and masonry.  
*Perfect for: Interior and exterior floors, masonry and metal*
- 22 Coronado® Rust Scat®** offers a complete line of coatings for interior and exterior metal surfaces, including primers and enamels in both waterborne acrylic and alkyd formulas.  
*Perfect for: Metal railings, doors, trim, siding*
- 23 INSL-X® Pool Paints** offer a variety of swimming pool solutions, including epoxy, rubber-based and waterborne formulas.  
*Perfect for: Swimming pools, fountains*
- 24 Ultra Spec® Masonry Int/Ext High Build Block Filler** is a preparatory coating to create a less porous and smoother painting surface.  
*Perfect for: Parking structures, concrete and cement block*
- 25 Ultra Spec® HP D.T.M. Acrylic Enamels** provide superior corrosion control and protection for interior and exterior metal substrates.  
*Perfect for: Metal pipes, siding, mechanical equipment*
